A CHEATING MAN'S HEART

An in depth analysis of a man's emotional process and things that lead him into infidelity. This thought provoking lecture forces the audience to look deep within themselves and often times unlocks the key to releasing that burden of hurt they've harbored since their last hurtful experience with an unfaithful partner.

THE THOUGHTS OF A GOOD MAN

In a time where men are taught that masculinity is marked by one's ability to emotionally remove himself from any situation, good men rarely articulate themselves in a way that women truly can understand. This lecture is a great communication barrier breaker, and will leave the audience with a renewed understanding of what really goes on in a man's mind.

BLACK BOYS ROCK

Young black men have been treated and portrayed as America's step children for far too long. As opposed to inspirational guidance, our young, black, male America is made to feel like a stranger in their own home. Repeated reminders, like the case of Trayvon Martin, leave no doubt that we are in desperate need of our youth being led away from survival in the streets to pursuing their dreams. Derrick uses his touching life story of the obstacles he overcame to a thriving entrepreneur to passionately impact young minds to hold themselves to a higher standard.
